

**REMARKS**

Examination in view of the foregoing amendments and following remarks is respectfully requested.

All amendments are purely editorial in nature. Specifically, the amendments to the specification and abstract of the disclosure have been made to correct previously present errors, to clarify the description, and to harmonize the description with the changes made to the drawings wherein the original free-hand sketches constituting **FIGS. 1-5** have been replaced by formal drawings and wherein the original **FIGS. 6 and 7**, each actually constituting two separate figures but each labeled as one figure and each being in the form of photographs, have been properly converted to line drawings and presented as two figures each. Also, the claims have been amended to improve the form thereof. No new matter has been introduced. Observe that the subject matter forming the content of the sentence added as the penultimate sentence of paragraph [0024] finds full support in original claim 22 and, therefore, is not new matter.

Respectfully submitted,

HUGH D. JAEGER, P.A.
